SUMMARY

Frontend Developer with 2 years of professional experience at August Infotech and independent MERN stack development since February 2024. Builds responsive React.js interfaces and Node.js/Express.js REST APIs with MongoDB, including JWT authentication, role-based authorization, and Stripe payments. Projects span healthcare, e-commerce, and tour booking.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, Redux Toolkit, React Router, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Backend & Databases: Node.js, Express.js, REST APIs, MVC Architecture, Middleware, CRUD Operations, MongoDB, Mongoose
Authentication & Security: JWT, Cookie-Based Authentication, Role-Based Access Control, Protected Routes
Tools & Design: Git, GitHub, Postman, Swagger/OpenAPI, Stripe, Cloudinary, Vite, npm, Figma, UI/UX Design

EXPERIENCE

Independent Full Stack Developer | Self-Directed Projects and Continuous Learning Feb 2024 – Present

- Built full-stack MERN applications with React.js, Node.js, Express.js, and MongoDB, including patient/doctor/admin role-based workflows.
- Designed REST APIs with CRUD operations; implemented JWT and cookie-based authentication, protected routes, and role-based authorization.
- Integrated Stripe payments and Cloudinary media management; managed application state with Redux Toolkit.
- Documented APIs with Swagger/OpenAPI and tested endpoints with Postman during development.

Junior Frontend Developer | August Infotech, Surat Jul 2022 – Jan 2024

- Developed and maintained responsive interfaces using HTML5, CSS3, JavaScript, and React.js.
- Converted UI designs and requirements into functional pages and reusable components.
- Fixed frontend issues and refined layouts for consistent behavior across desktop, tablet, and mobile.

Frontend Developer Intern | August Infotech, Surat Jan 2022 – Jul 2022

- Built responsive web pages and UI components from design specifications using HTML, CSS, and JavaScript; tested cross-device compatibility.

PROJECTS

CareSync – Doctor Appointment Management System
React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Stripe, Tailwind CSS

- Built a full-stack platform with separate patient, doctor, and admin workflows, including appointment booking and Stripe payment processing.
- Implemented cookie-based authentication, protected routes, and role-based authorization; used Redux Toolkit for state management.

Trendor – E-Commerce Application
React.js, JavaScript, REST APIs, Tailwind CSS

- Developed a responsive e-commerce frontend with product browsing, interactive interfaces, and reusable React components styled with Tailwind CSS.

Natours – Tour Booking Application
Node.js, Express.js, MongoDB, Mongoose, JWT, Swagger | Live: natours-zyht.onrender.com | GitHub: github.com/Bhranti0302/natours

- Developed REST APIs for tours, users, bookings, and reviews with JWT and cookie-based authentication, role-based authorization, and Swagger/OpenAPI documentation.

EDUCATION

Bachelor of Engineering in Computer Engineering | S. S. Agrawal Institute of Engineering & Technology 2018 – 2022

CERTIFICATIONS

AlmaBetter – Full Stack Web Development | Udemy – JavaScript (2025) | Udemy – React (2025) | Udemy – Node.js, Express.js & MongoDB Bootcamp | Udemy – Figma to Webflow to Freelancing
